During this session, we will review our current Nursing Social Contract. What is it? What is its history? How does it guide our Nursing practice? What current events have affected its foundation? What is our call to action as a profession?

## Learning Objective(s)

At the conclusion of this learning activity, participants will be able to:

1. Discuss how the Nursing Social Contract directs the profession of nursing practice.
2. Explain the tenets of the Donabedian model, including how use of this model provides RNs the opportunity to define and measure their practice as it relates to patient quality outcomes.
