

Improving the Care of Patients with Substance Use Disorder (SUD)

March 14th, 2024 4:30 pm – 6:30 pm

Dartmouth Hitchcock Medical Center,
Level 1, Conference Room 1

Overview

This 2-hour learning activity will help healthcare professionals build the skills and confidence needed to support patients presenting to the emergency department with substance use related concerns. Through interactive, case-based learning activities you will get to practice recognizing, screening, treating, and/or referring patients with substance use disorder.

Learning Objective(s)

At the conclusion of this activity, learners will be able to:

- Describe the assessment instruments and techniques used to screen for SUD
- Identify at least three approaches used to support patients with SUD
- Apply evidence-based practices in the screening and promotion of recovery for patients with SUD

Plan of the Day	Time	Duration	Presenter(s)
